PASSED

Rexflow's hydraulic filtration product line boasts a comprehensive selection of filter elements known for their remarkable advantages. With a superior dirt-holding capacity, these elements guarantee sustained filter efficiency and extended element lifespan. Available in diverse filter materials, construction types, and micron ratings, they play a crucial role in safeguarding vital system components. Rexflow's expansive array of filter elements ensures seamless operation, effectively filtering abrasive fluids, cooling lubricants, or water-based fluids, all while adhering to the highest standards of absolute filtration.

HYDRUALIC & PNEUMATICS

Elevate the efficiency of your hydraulic systems using our Rexflow Hoses & Fittings.

BRAIDED HYDRAULIC HOSES

- FIRE RESITANT
- HIGH ENDURANCE
- HIGH EFFICIENCY
- ABRASION RESISTANCE

LOGGING

OIL & GAS

Rexflow's braided hydraulic hoses emerge as indispensable fluid conveyance solutions, offering a multitude of advantages for diverse equipment and applications. Featuring broad operating pressure ranges, exceptional resistance to abrasion, enduring durability, and high-performance transfer capabilities, these hoses excel in hydraulic system services. They are particularly well-suited for conveying petroleum and water-based fluids in general industrial applications. Additionally, Rexflow's hydraulic hoses prove highly effective in handling petroleum and fire-resistant hydraulic fluids, fuel, lubricating oils, gasoline, water, and various industrial fluids. Their versatility extends to applications in logging, construction, mining, and other off-highway scenarios.

COMPREHENSIVE FILTER RANGE

ALCO Filters stands out for its extensive benefits in the realm of automotive filtration. Specializing in filters for cars, trucks, earth-moving equipment, and stationary engines, ALCO offers a diverse range encompassing over 3500 different filter types, with more than 100 new additions annually. Widely trusted in over 66 countries spanning Europe, Africa, and the Middle East, ALCO Filters operates from four strategically located distribution facilities in the UK, Germany, Greece, and Cyprus, ensuring swift and efficient delivery. The company's unwavering philosophy centers on consistently delivering quality goods and services, empowering customers to foster wealth and prosperity for themselves.
